

Do you want to use your skills and knowledge to help tackle the world's toughest challenges? Explore our resources to help you navigate the opportunities.

Your Research: Science for Global Good

Global development challenges such as infectious diseases, conflict and food security are complex and dynamic. To develop appropriate solutions we need new thinking, input from all disciplines and equitable global collaborations.

Explore our [researcher hub](#) with inspirational case studies of UK-funded researchers using innovative approaches from nanotechnology to behavioural psychology. Navigate the opportunities using our [funding hub](#) and read our tips for [building partnerships](#).

Funding hub

		
		

Funding for global development research is increasing in size and variety. Visit [our funding hub](#) to explore and understand the main funding opportunities within the UK.

The information for each funder or fund includes their research focus, countries they fund, recurring funding calls and eligibility criteria.
